

“Tangibly better.”

B-Cool MC 660

Employees from
Aegerter Swiss Technology
and Blaser Swisslube

Our Liquid Tool. Your Success.

For the demanding mixed materials production.

B-Cool MC 660

Universal

- For all alloys based on steel, aluminum, titanium, nickel, cobalt and copper
- Suitable for both hard and soft water
- For individually filled machines and central systems

Strong

- Enables high cutting performance and long tool life
- Ideal for challenging applications and the most demanding material combinations

Clean

- Excellent rinsing behavior
- No residue formation
- Low foaming also in high-pressure systems

Stable

- Optimized protection from bacteria and fungi
- High hard-water stability

Convinces even our most critical customers

Our entire B-Cool expertise – combined in one single product

“Impossible isn’t a word in our vocabulary.” Test customer Andreas Zumbach, CEO, Aegerter Swiss Technology

Benefit from our unique Liquid Tool™

Productivity, economic efficiency and machining quality are factors that critically depend on the choice and the quality of your metalworking fluid.

With our profound know-how and experience, customized services and excellent products, we help you fully capitalize on the potential of your machines and tools and turn your metalworking fluid into a key success factor – a Liquid Tool.

Test us. It’s worth it.
