Our Liquid Tool. Your Success.

Ideal for job shops producing small batches in a variety of materials.

Blasocut 201

- Suitable for all common job shop applications and materials
- High protection against aluminum staining
- Clean machines and parts thanks to excellent rinsing behavior
- Suitable for both hard and soft water
- For individually filled machines and central systems

Bio-Concept – proven alternative to conventional metalworking fluids

- Supports the growth of benign primary bacteria commonly found in drinking water
- Stops the growth of other, potentially harmful microorganisms
- Eliminates the need for bactericides
- Safe and effective – proven in thousands of facilities since 1974

Blasocut with Bio-Concept – gentle to people and the environment

Benign primary bacteria stop other microorganisms from growing.

Stable emulsion tolerant to tramp oil ensures long sump life.

Profit from our unique Liquid Tool™

Productivity, economic efficiency and machining quality are factors that critically depend on the choice and the quality of your metalworking fluid.

With our profound know-how and experience, customized services and excellent products, we help you fully capitalize on the potential of your machines and tools and turn your metalworking fluid into a key success factor – a Liquid Tool.

Test us. It's worth it.
