Our Liquid Tool. Your Success.

# For high process reliability in series production.

## B-Cool MC 650 AL

- Spotless surfaces even with sensitive aluminum alloys
- Clean parts and machines thanks to excellent rinsing behavior
- Low foaming also at high cutting speeds and in high-pressure systems
- Suitable for soft and hard water

## Designed for machining soft and hard aluminum alloys

Extensively tested – in the laboratory, technology center and at test customers

Reliable in practice – also in demanding applications

### Profit from our unique Liquid Tool

Productivity, economic efficiency and machining quality are factors that critically depend on the choice and the quality of your metalworking fluid.

With our profound know-how and experience, customized services and excellent products, we help you fully capitalize on the potential of your machines and tools and turn your metalworking fluid into a key success factor – a Liquid Tool.

**Test us. It's worth it.**
