Our Liquid Tool. Your Success.

Benefit from decades of research and experience.

Vasco 601

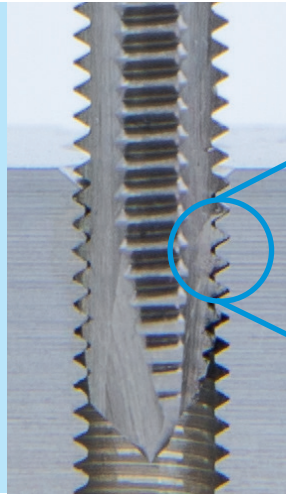

High-performance mineral-oil free water-miscible metalworking fluid

- Ensures perfect surfaces – even with sensitive aluminum alloys
- Enables long tool life thanks to high cutting performance
- Ensures long sump life and stable pH
- Is gentle to people and the environment
- Based on renewable ester
- Suitable for both hard and soft water
- For all alloys based on aluminum, steel, titanium, nickel and copper

Cuts and forms even the smallest threads to perfection

Thread tests in our in-house technology center Analysis of thread profiles with 3D microscope

Vasco 601*
Perfect thread profile

Standard coolant*
Thread profile fails dimensional check

*Both coolants at 8% concentration

Benefit from our unique Liquid Tool™

Productivity, economic efficiency and machining quality are factors that critically depend on the choice and the quality of your metalworking fluid.

With our profound know-how and experience, customized services and excellent products, we help you fully capitalize on the potential of your machines and tools and turn your metalworking fluid into a key success factor – a Liquid Tool.

Test us. It's worth it.
